### **Event Details:**

The seminar titled "Empower Your Aura and Boost Your Inner Self," organized by Nagpur Institute of Technology, featured esteemed speakers Mr. Sandip Patil and Mr. Ashish Kalawar. The event focused on how mindfulness and meditation enhance creativity, focus, and emotional well-being. Mr. Patil highlighted that these practices reduce stress and anxiety by promoting relaxation and emotional resilience, while Mr. Kalawar emphasized their transformative impact on cognitive functions, including memory and problem-solving, contributing to higher IQ levels. Students reported increased self-awareness and self-acceptance, leading to greater self-confidence and a more positive self-image. The program was efficiently coordinated by Dr. M. Sabir and Prof. Hitashi Chauhan, with significant contributions from Dr. Jitendra Bhaishwar, Prof. Dhiraj Meghe, and all B.Tech First Year faculty members.

### Report on “Communication Game (Ring Passing)”

Department	:	Department of Information Technology
Event Title/Activity Name	:	<b>Communication Activity-Ring Passing</b>
Program coordinator	:	Prof. Jagdish Pimple
Objective of program	:	Inculcate the Communication skills.
No.of Student Attended	:	86
Event Date	:	15 <sup>th</sup> Oct. 2022
Venue	:	ED Hall A-Wing 3 <sup>rd</sup> Floor

#### Summary:

Department of Information Technology of Nagpur Institute of Technology, Nagpur organized the Communication Game activity on dated 15<sup>th</sup> Oct. 2022. The event was organized for the student of 2<sup>nd</sup>, 3<sup>rd</sup> and final year IT. Communication exercises and games are interractional activities that aim to develop how we relate to one another, including how we share information and get along.

They can be one-on-one or team exercises, but the goal is the same: they help us develop our interpersonal skills and improve our capacity to relate.

The communication game called action passing was organized, from this the student learned very important message that can blindly faith on the person where u r getting the information because that information may or may not be correct one, until and unless u haven't seen by your own eyes.

All the students were enjoyed a lot and learn the communication game.

#### Summary:

Department of Information Technology of Nagpur Institute of Technology, Nagpur organized the team building activity on dated 8<sup>th</sup> Oct. 2022. The event was organized for the student of 2<sup>nd</sup>, 3<sup>rd</sup> and final year IT. The main aim of this team building activity is to inculcate the team building skills among the students. Team building helps those who might not typically be engaged to interact with each other. It teaches to work together thus increasing productivity. Finding ways to utilize each person skills and then transferring it to a work project, results in more efficient work and satisfaction from the team overall.

The Chaining-Nexus event organized under team building activity. **Prathamesh & Group and Vishakha & Group was the winner and runner up respectively.** All the winners were awarded with a gift and certificates.

All the students were enjoyed a lot and learn the team building skills.

## Seminar Report

**Name of Program** - Seminar on Bhandewadi Waste water Sewage Treatment Plant, Nagpur.

**Name of Department**- Civil Engineering

**Name of organization**- Civil Engineering Student's Association

**Name of activity** –Seminar

**Venue**:Bhandewadi Waste water Sewage Treatment Plant, Nagpur.

**Date of event**- 10-05-2022

**Event description:**Forum of Civil Engineering Department CESA (Civil Engineering Student Association) Organized a Seminar on Bhandewadi Waste water Sewage Treatment Plant, Nagpur. for the students on 10-05-2022. A visit was organised at Bhandewadi Waste Water Sewage Treatment Plant, Nagpur, Nagpur, by Civil Engineering department on 10/05/2022, between 11:00 am to 3:00 pm. 83 students of B. E second year and Third year accompanied by four faculty members Prof. P. Salodkar, Prof. N. Maske, Prof. J. Gurnani, and Prof. R. Bhosle.

Mr. Lalit Burde, Asst. Engineer and Mr. Shyam Sasudiya, Asst. Engineer address students about various preliminary, primary, secondary and advanced processes related to sewage treatment are carried out in the field. Main aim of industrial visit is to acquaint the students with the process of municipal waste water treatment. Through industrial visit students are acquainted about new technologies and knowledge. In the beginning, Mr. Lalit Burde and Mr. Shyam Sasudiya briefed the students about 130 MLD Tertiary Sewage Treatment Plant. He has made this session interesting by asking basic questions to the students. After introduction, all students were divided in two groups of batches and were headed by one staff member of respective program who helped them to understand the processes going in the plant. The Staff has explained functions of each unit of preliminary, primary, secondary and tertiary process. Students got real feel of advanced treatments to sewage after this visit. They got a chance to transfer their theoretical knowledge to practical implications. This will even help students to understand subject matter clearly in future also. Sewage treatment is the process of removing contaminants from municipal wastewater, containing mainly household sewage plus some industrial wastewater. Physical, chemical, and biological processes are used to remove contaminants and produce treated wastewater that is safe enough for release into the environment. A by-product of sewage treatment is a semi-solid waste or slurry, called sewage sludge. The sludge has to undergo further treatment before being suitable for disposal or application to land.

This visit helped second and third students to enhance their collective theoretical and practical knowledge of sewage primary, secondary treatment and tertiary Treatment Plants. Students can understand detailed design of plant and process which were covered in the subjects. They can identify their prospective study areas for their further study and research. Physical observation of various processes of plants will definitely be enhanced the skill and understanding of students in the filled of Environmental Engineering..
